RE: Denial of Prior Authorization ? CPAP Device and Supplies

Dear Member,

We have reviewed the prior-authorization request submitted by your physician, Dr. Osei, for a continuous positive airway pressure (CPAP) device for the treatment of obstructive sleep apnea. This request is DENIED.

Rationale: The requested equipment is not medically necessary at this time. The submitted documentation does not establish that conservative measures, including positional therapy and weight management, are insufficient to manage your condition.

You have the right to appeal this decision within 180 days of the date of this letter. If the internal appeal upholds the denial, you may request an Independent Medical Review through the California Department of Managed Health Care.

Sincerely,

Utilization Management
